

Wedding Video Contract

A Free Contract Template for Wedding Filmmakers

Getting Started

Download and Install

To edit the [PremiumBeat](#) Wedding Video Contract, you will need **Adobe Acrobat**.

Open the PDF

The Wedding Video Contract PDF is designed for simple text editing. **Open the PDF with Adobe Acrobat.**

Cover Page

The cover page has four text fields. Click into each text box to edit *Your Business Name, Email, Phone Number, and Business Address*.

Pages 2-6

The second page features text fields to be edited by the couple. ***This page does not require any changes to the text.***

The third page partially features text fields to be edited by the couple. You will **need to type your name or business entity in the text box labeled *Your Company***. (Doing so will alter all references to your company name through the remainder of the contract.)

You will need to enter the number or weeks after the wedding that the couple will receive all deliverables, as well as the total amount of hours you intend to shoot, the total cost of services, and the location of any local taxes.

The fourth page requires an entry of the amount for the deposit, and remaining balance due.

The fifth page automatically generates information. ***This page does not require any changes to the text.***

The sixth page automatically generates company information. Leave the client signature and date blank for the couple to sign. Upon your receipt of the couple's signed contract, you will then sign and date as the producer. Send a completed copy to the couple for their records.

Page 7

The seventh page is a breakdown of all costs associated with production. Fill in the cost of each category. The final *TOTAL* should equal the amount mentioned on page three.

Save the PDF

Click - File > Save As > Choose a Different Folder

Determine the Location you want to save your PDF too.
